Dear Dr. Borres,

Warmest Greetings from TII!

TII (Tomorrow International Institute, Inc.) have been conducting various events to help youths and student leaders to not just understand what leadership means but to help them fathom what the world of the heart is. In partnership with **IMEI (International Mind Education Institute)**, conducting Mind Lectures provide the clear analysis of the heart, desire, self-control, isolation, exchange, wisdom and the world of the heart and propose solutions to youth and every individual who lives in a materialistically abundant 21st century, however, cannot control their hearts and grieve due to unseen pain and depression, and to those who are confused and experience conflicts in a rapidly changing world with intense competition. The purpose of this event is to revolutionize the idea of leadership by focusing on the importance of having a leader's heart as an educator, being aware of relevant issues in the country which affect our students' education. We believe that addressing these issues will create the caliber of a leader and educator that is best equipped to lead future generations and have a positive impact on society.
