REGIONAL DISASTER RISK REDUCTION AND MANAGEMENT COUNCIL IX

Pres. Corazon C. Aquino, Regional Government Center, Brgy. Balintawak, Pagadian City

OCDIX_CBTS

FOR : RDRMC IX Member-Agencies
FROM : DIR. RAMON M. OCHOTORENA
Regional Director
DATE : July 27, 2022
SUBJECT : COMMUNITY-BASED DISASTER RISK REDUCTION AND MANAGEMENT
(CBDRM) TRAINING COURSE FOR WOMEN/GAD FOCALS

According to the United Nations Development Programme (UNDP), CBDRM is defined as "activities, measures, projects, and programs that aim to reduce disaster risks and are primarily designed by people living in high-risk communities and are based on their urgent needs and capacities." CBDRM promotes the cultures of self-help and self-empowerment. Through CBDRM, the community is able to implement DRRM in a more organized and systematic manner by themselves using their own capacities.

The CBDRM approach advocates equal community participation and involvement. It focuses on community vulnerabilities and is couched within the broader sustainable development. Using a gender-sensitive approach ensures that disaster risk management is conducted in a comprehensive way, addressing needs and harnessing the capacity of all people most especially women. Thus, the Office of Civil Defense IX will conduct a **Community-Based Disaster Risk Reduction and Management Training Course (Blended)** for Women/GAD Focals to elevate the role of women as DRRM advocates who can drive a risk reduction agenda in support of community development goals.

With this, we would like to invite your **Gender and Development (GAD) Focal** to attend the above-mentioned training which will be held on **August 23 -25, 2022 via Zoom**.
